

**A HEALTHIER NB:  
THIS IS MY  
ONE CHANGE**

**Mr. Hédard Albert's one change is tax deductions  
for those who pay to exercise.**

What should be done is that everyone – children, adults and seniors, who exercise... if we could give them tax deductions for those who pay a subscription to exercise. A senior person from the Acadian Peninsula often doesn't have a pension plan and

relies only on what is provided by the government. But if there was a tax deduction, there might be more people exercising. And the more they exercise, the lesser the costs for our health care system.

**Hédard Albert, Member of the  
Legislative Assembly, Caraquet**
