

2026 NBMS HEALTH SUMMIT

Provincial Clinical Information Solution (CIS): Physician Perspectives on Transforming Care

The Department of Health invites you to an engaging workshop introducing New Brunswick's provincial Clinical Information Solution (CIS) for acute, ambulatory, and emergency care services. The session will begin with a brief overview before handing the floor to physicians actively preparing for the CIS, providing firsthand insights and practical perspectives. Discover how this solution promotes clinical standardization, enhances patient care, and empowers physicians to drive meaningful transformation in their practice.

Learning Objective:

By the end of this session, participants will be able to:

- Describe the rationale and benefits of implementing a single provincial Clinical Information Solution (CIS) for care across New Brunswick.
- Summarize the importance of clinical standardization and best practices within the CIS to ensure quality and consistent patient care.
- Identify elements of a CIS that promote best practice, such as documentation templates, order sets, and standardized medication management workflows.
- Understand opportunities for physician engagement, preparation, and transformation.

Travis Quigley

Assistant Deputy Minister, Clinical Information Solution Transformation
Department of Health, GNB

Travis leads large-scale digital health transformation with energy and vision, bringing a deep understanding of how innovation can improve care delivery while supporting those who provide critical services to the population. With over 20 years of experience across diverse healthcare leadership roles, he leads with passion and a systems-level perspective on the complexity of New Brunswick's health ecosystem. As Assistant Deputy Minister responsible for the delivery of this transformation Travis

appreciates the opportunity to support his colleagues in this once in a generation opportunity to make an impact.

Dr. Eugene Mah

After receiving his medical degree from the University of British Columbia, Dr. Mah completed his family medicine residency at Dalhousie University. Since joining Horizon in 2002, Dr. Mah has worked in the Emergency Department of Horizon's Miramichi Regional Hospital and has served as the Emergency Medicine Department Head, Medical Staff President and Medical Director for the Miramichi area. He took the position of Horizon Chief Medical

Information Officer in November 2024.

Dr. Martin Robichaud

With over 25 years of experience in physician-leader roles, Dr. Martin Robichaud brings a blend of clinical practice and executive leadership to health system transformation. He spent 16 years as an emergency physician during which he served as Chief of the Department of Emergency Medicine where he led several initiatives. For the past 10 years, he has held senior medical director roles

overseeing multiple strategic portfolios in clinical operations, governance, and system transformation. Dr. Robichaud is eager to continue to transform the health system in his role as Vitalité's Chief Medical Information Officer.
